

Dear friends,

As Co-President of the United Front, I am pleased to present to you for publication the closing resolution of the Zimmerwald Conference 2.0 on September 6, 2025, which was adopted unanimously with 4 abstentions. The conference was characterized by a decidedly democratic culture of debate. This was despite, or perhaps because of, the art of not glossing over fundamental differences, but at the same time striving for the greatest possible unity in the fight against the threat of world war and fascism while setting aside differences. With success! The test will be whether and how words are followed by deeds. The conference was marked by a great willingness on the part of all participants to intensify cooperation and improve cross-border coordination and cooperation. The United Front as the host organization looks forward to future cooperation.
